BSc. Computer Science

Nyeri

November 2020- present.

Kisii School.

High school diploma

Kisii

February 2016- November 2019.

PROJECTS/ ACCOMPLISHMENTS.

Music Jukebox.

A simple music application developed using Java. The app allows one to download music from any website and plays the song. The key reasoning behind its development was to enable one to be able to listen to music offline after downloading the song.

Commart web.

An online website created using HTML, CSS, (for the front-end) JavaScript and PHP (for the back-end). The website enables students to advertise commodities that they want to sell and at the same time check what other students are selling.
